

Dear Ms. Peterson,

Please note the updated 2017 Pricing Guidelines for the BMW Group Corporate Sales Program Level 2 Incentives are listed on the website www.BMWGroupFleet.com. Please remove the former PDF attachment and post the link to our website along with the Customer Information Form. The new pricing went into effect on July 05, 2017 for **NEPP3554 Academy of Medicine of Cincinnati**.

The BMW Group Corporate Fleet website contains all eligible models, the Corporate Fleet incentives by Series, as well as ineligible vehicles and the terms and conditions for the program.

Level 2 Pricing is applied to Corporate Fleet vehicles that are either Cash Purchased, Financed or Leased through BMW / MINI Financial Services by the eligible employee.

Eligible employees may share this program with their immediate family members. Immediate family members for this program are defined as spouse, parents, siblings, grandparents or children of the eligible employee, and the family member is required to reside at the same address as the employee. Acceptable forms of documentation would be required and it is not necessary that the eligible person be on the application or title, but a clear connection to the eligible employee is required.

For more information, please contact us directly.
Thank you

Kind regards,

Andrew Bellenie, Key Account Manager
